

# Save money. Save the environment.

Use natural gas to lower your facility's operating costs and reduce greenhouse gas emissions with

**combined heat  
and power** technology.

# Overview of ATCO Gas

- Part of the ATCO Group of Companies
- An Alberta based, province-wide natural gas distribution company that serves nearly 1.1 million customers in almost 300 Alberta communities
- Provides safe, reliable and cost effective natural gas distribution service

# Program Background & Objectives

- Funding from the Climate Change Emissions Management (CCEMC) Corporation (33%)
- Mandatory reduction of GHG emissions
- Stimulate the micro-CHP market

# Business Model

- ATCO Gas installs, owns and maintains the CHP system for you
- You pay natural gas and grid electricity as normal
- You will receive overall energy cost savings
- You pay ATCO Gas an agreed upon monthly charge

# Program Eligibility Criteria

- 80 to 500 kW CHP unit
- Minimum CHP utilization 70% or 6,100 hrs./yr.
- Balanced need for thermal and electrical demand
- Detailed consumption demand analysis

Thank you!
