

# ABRIO SOLAR INSTALLATION – AIRDRIE, AB

## WESTCOR + ROCKY MOUNTAIN SOLAR CO.

### Project Details:

- Rocky Mountain Solar Co. successfully installed a 110 kW DC solar array on a former hotel that has been converted into a senior lodge.
- The project was fully commissioned in the summer of 2025.
- The system features 168 LONGi 605 W solar panels and was retrofitted onto the existing building structure.
- This installation is expected to offset approximately 14% of the facility's total electrical consumption, generating an estimated 91,564 kWh of clean energy annually.
